GOOD TIME AT RIVERSIDE

10 EAST WASHINGTON STREET.

ENJOY AN OUTING.

River Trips on the Helen Gould During the Evening-Others at the Park.

Riverside Park was patronized to a great extent yesterday and last night by citizens who sought the cool retreat of the park to escape the intense heat of the downtown streets. Every car bound for the park during the afternoon and early evening was filled with gay young couples laughing and making merry at the prospect of having a good time in the park or taking a ride down the river on the steamer Helen Gould. The girls in nearly every party dressed as airily as possible and without hats, and the young men were clad in shirtwaists. From shortly after dinner yesterday families laden with heavy baskets of eatables went to the park to remain

Beyond the golf links where the home of Bruin is erected scores of children found delight in feeding the bears large quantities of cakes and other sweets. The monkey cage came in for its share of patronage. Here great crowds of the little ones would collect and watch with interest the antics of the monkeys.

THE EPWORTH LEAGUE. About 4 o'clock in the afternoon the crowd at the park was swelled greatly by the arrival of about three hundred members of the Epworth League, representing all the leagues in Marion county. This crowd had a plentiful supply of food. The meeting was arranged principally to give a fareciety who intend leaving next week for San Francisco. A programme of speechmaking had been previously arranged, but was dispensed with later in the evening. Trips were made on the Helen Gould and the crowd remained at the park until the last car left.

Rev. Drs. Rawls and Lasby and Mr. Palmer, one of the State officers of the society, were to address the members on the boat, but owing to lack of room to accommodate all who wished to be aboard this feature was abandoned. During the several trips made by the boat, however, the crowd kept up a continual song service. Mr. Palmer, in speaking of the Indianapolis delegation which will leave Monday, said it would number at least fifty members of the society. One car has already been engaged to carry the local crowd. he said, but he thought another car would be added before starting. Four members one of the most prosperous leagues in the Indianapolis district, will be well represented. The delegates and those attending the convention will leave Monday morning over the Big Four for St. Louis. Another crowd wiil leave Monday afternoon over the Vandalia for the same point. The Indianapolis delegation will be augmented greatly by representatives from Anderson, Muncie and Shelbyville and from other points which

WOODRUFF PEOPLE PLEASED.

The Net Sum Renlized from the Feast of Lanterns Was \$1,139.

At the clubhouse in Woodruff Place last night a meeting was held to receive the financial report of the feast of lanterns recently given in Woodruff Place, Mr. E. M. showed that the net receipts amounted to Canning Company, from \$75,000, to \$80,000, \$1,139. The highest sum realized at any previous entertainment was about \$900. It of the feast of lanterns the net sum realized would have reached the unprecedented

figure of \$2,000 or more. Last night Mr. W. O. Bates read the palms of the Woodruff Place people at the elubhouse. In the make-up of an Arab, Mr. Bates did yeoman service for the kindergarten fund on the night of the entertainment, and last night he extended the courtesy to the residents. As a unique departure from the usual form of reading palms he last night had the people thrust their hands under a curtain so he could not see the faces of his clients. The result was most satisfactory. The residents of Woodruff Place feel proud of the great success plans and specifications of the new house. of their annual entertainment.

JUDGE BAKER'S POSITION

THE TRADITIONS OF THE SENATE

Rule Established Years Ago That No Man Past Sixty Should be Confirmed for Circuit Judge.

In all the discussion recently regarding the appointment to fill the vacancy on the United States Circuit Bench caused by the banks would have to select some one to take the chair now held by Judge Baker, but now there comes from Washington in-

This information is that when Senator Edmunds was chairman of the judiciary committee of the Senate, which receives the recommendations for the appointment of federal judges, he and his associates established a rule that no man should be confirmed to the Circuit Bench who was over sixty years of age. It is required that a man must serve ten years on either the Circuit or District benches and must fore he can retire on salary.

The dispatch also points out that Judge Baker's service on the District bench would not count in his retirement from the Circuit Bench even if the Senate should waive its time-honored traditions, and he would be eighty years old before he further said that Judge Baker is six--nine years old and in a year or a little more he will have served ten years on the District Bench. Unless the Senate should waive its rule in this particular case he could not be appointed to the Cir- His Alleged Victim Is His Stepdaughcuit Bench. It is appreciated that at sixty-nine Judge Baker is in full possession of his powers, but it is presumed this fact would not affect the general rule of the

Senator Hoar is now chairman of the judiciary committee, and his conservatism and respect for the traditions of the Senate are well known to the public at large. It is also well known here that Judge promotion, and he has said in an interview that he will not take part in the contest for the appointment to the Circuit Bench. Under the foregoing conditions it is thought in Washington that the President may be called upon to make only one appointment, a successor to Judge Woods on the Circuit Bench.

Judge Leathers Mentioned.

There is much talk among attorneys of the city over who will be appointed to the federal judgeship to succeed Judge Woods. Leathers, of the Superior Court, have advanced his name as a candidate.

The County Board of Review has comtend, and the other leagues in the city ments over assessments already made, if to return to him having failed, he went will number each about three. Greenfield, changes become necessary. The board yesterday changed several assessments on manufacturing plants that have been absorbed by trusts. The trusts have sent out lists of their respective plants over the country. Invariably these were far below last year's assessments, and Township Assessor, Jefferson returned them as fast as they arrived. The trusts so far have made no objections or changes, and the assessments were made according to the judgment of the board. Most of the asesssments were made the same as last year. The old Waverley plant was assessed at \$144,775, while the American Bicycle Company reported the apppraisement at \$67.015. The appraisement submitted by the Standard Oil Company on its station in this city was raised from \$43,110 to \$100,000; the assessment of the American Car and Foundry Company on the old Indiana plant was raised from \$16,000 to \$23,000; the American submitted the report, which Canning Company, owner of the Dugdale and the Western Paving and Supply Company from \$2,285 to \$10,000. The Columbia Club was assessed at \$78,455. Frank Mc-Cray was on hand yesterday to notify the board that he would appeal from the assessment of the Indianapolis News.

Those that sit near the windows are chilly, and as a consequence, they, too, are prevented from studying and progressing as they should. Both kinds of pupils are rendered more susceptible to coughs and colds. Now inasmuch as we send our children to school to learn and to make progress, it occurs to me that it is the worst sort of extravagance to surround them with conditions that not only prevent them from studying but make them liable to disease. Another objection to stoves in schoolrooms is that they heat the same air over and over again and thus proper ventilation is not obtained. Every one has noticed the frequency of headaches among school children and the general air of listlessness, not to say stupidity, in those that attend schools heated by stoves has also been noted. Why, in the State of Massachusetts and in the other New England States, and in New York as well, it is against the law to heat schoolrooms with ordinary stoves.
